ED ALL OVER THE WORLD

TO THE PUBLIC

On the 23inst 1 called attentito misrepresentations made relative to an addition to Potent O I lahoung This cilled forth an article supposedly in reply which in riself but adds to the interpresentation as the telegrims are supposedly sign ed by several men of the best chir-acter and naturally thus currie-weight. They give the nearest point of addition as 6 plocks from the post uffice—not 2 nor 4. Reference to the official [1] it of the townshi-shows that the nearest point on the town line from post office Louis streets in the direction of the addistreets in the affection of the addi-tion referred to is in reality out a blocks 2850 feet and continuing from the point to the critic of the ideltion which is the average dis-tance of lots from post office we hate an extra distance of 2400 feet measure on the printed plot of said addition or a total average distance or 5250 feet 30 feet short of on along teer and rest short of a mile. The gentlemen who signed the telegram could not have meas are the distance clse they not be not have signed it.

Neither the article in question is in he telegrams in any wise contradic my statement that misseprentations were being made but rather con-fron them and show a desire on the orm from and show a desire on the part of those interested in the sale of fore in the addition or ferred to to continue their misrup resentation with a show of official

An official plat of townsic as well as a published plat of the addition offered to use of the addition of the nn asurements

The union station matter which is of the greatest importance was not touched upon. The nisrapre seniation concurring it was not ca-pable of contradiction so readily by pable of contraction as the more all incasurement so has the more all leading.
